Capgemini

Business Intelligence Analyst Intern

Remote

Feb 2021 - May 2021

- I was trained on various technologies like SQL, python, Tableau, Informatica, Teradata and various data concepts.
- Built a group project on School Performance Management System.

PROJECTS

OTT Platform Data Visualization *Tableau, Excel, SQL*

I built an interactive dashboard using OTT platforms data keeping the business problems in mind like region, watch time, ratings, reviews, etc.

School Performance Management System *SQL, Python, Tableau, Excel, Informatica*

We worked as a group to create an interactive, convenient and easy to use management system for a school. We made the whole system from scratch using data cleaning, filtering, transforming the data as per business needs and then created a dashboard showcasing all the business requirements as per the problem statement.

Vehicle Tracking Application *Android Studio, Java*

A group project focused on tracking the buses and transport vehicles to and from a particular organization. This had two interfaces one for the driver and the other for the viewer to update the real time location and access it accordingly in order to pick-up, drop or reach a point.

EDUCATION

Chandigarh University

B.E. Computer Science Engineering *GPA: 7.05*

Gharuan, Punjab

Aug 2017 - May 2021

Sri Chaitanya Educational Institutions
